An Invitation to Join The EFO Collectors Club--

In addition to its regular mailing, this issue of *The EFO Collector* is being sent to a number of nonmembers who have indicated a collecting interest in philatelic errors, freaks, and oddities. We hope that you who are not members will derive enlightenment or entertainment

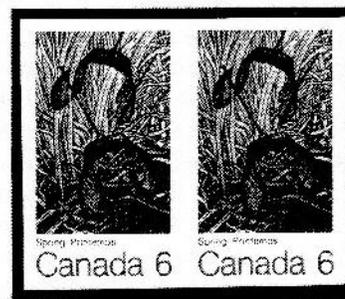

from the issue; find fascinating items to bid on in our auction; and, after reading page 5, decide that there is sufficient community of interest to clip the membership application form and mail it with your check to our secretary, Jim McDevitt.

No One Regrets It More Than We--

Joe Licata has been of outstanding service to the EFO Collectors' Club. As Auction Director, he's been the ultimate in accuracy, reliability, honesty, and indefatigability. Besides, he's been good-natured, friendly, and amenable to change.

But, after five years on the job, he's retiring, with regrets, from his demanding job as the Club's auctioneer in order to spend more time with his family. His letter of resignation is on page 20. Joe, we understand, but believe me, we regret it too.

Joe has expressed his willingness to assist in the transition to a new Auction Director-- to share methodology, computer programs, and special stock sheets used for half-tone photography. But first, we need to identify Joe's replacement. Continuity of the auction is vital to the success of the EFO Collectors' Club. Do I hear the clamor of volunteers offering their services? It's a job that takes an orderly mind, a head for figures, some background in EFOs, probably a personal computer, and plenty of time and energy. Write to me at 135 Hacienda Drive, Merritt Island, FL 32952 to let me know of your availability.

--Howard Gates

ALL CONTENTS COPYRIGHT 1991 BY THE EFO COLLECTORS' CLUB. Authors and contributors have express permission to reuse any of their material elsewhere without restriction. Except for material reprinted herein, or material individually copyrighted by the author, material herein may be reprinted elsewhere as long as full credit is given to *The EFO Collector*, citing the issue date and number, and giving the address of the EFOCC secretary.

The EFO Collector is published six times yearly in even-numbered months. The deadline for any issue is the 15th of the month preceding the month of issue-- e.g., May 15 for the June issue. Send editorial material directly to the editor.

Membership includes subscription to *The EFO Collector*. Application for membership, accompanied by \$13 (\$26 overseas) to cover the first year, should be sent to the Secretary.

Advertising for *The EFO Collector* will be accepted at the following rates: first insertion-- full page, \$30; half page, \$16; quarter page, \$9; classified ads, 6c per word. Discounts on subsequent insertions of the same ad: second insertion, 5%; third, 10%; fourth and subsequent, 20%. The first insertion must be fully prepaid. Deadline for ad copy: tenth of the month prior to the month of issue. Advertisements, ad payments and related inquiries should be directed to the Advertising Director.

EFOCC members are entitled to three free 35-word (excluding address) classified ("EFO POST") ads annually. These should be sent directly to the editor.

Earl K. McAfee for the Booklet Study Group: Little Jack Horner--

Many booklet collectors can't walk past a Post Office vending machine without dropping in a few coins in the hope of making a discovery. After many years of such expectations-- and ensuing disappointments-- an elated correspondent reports that, like Little Jack, he finally pulled out a plum.

The plum, pictured here, is a \$2.90 Bureau-printed "F" booklet. Its only content was a tiny strip of paper, as shown in the left-hand illustration, in which this vestigial "pane" has been backed by black paper to make it visible. The "complete booklet" is shown at right.

Our correspondent's description is as follows: "It's obvious that, in the assembly process, a strip of panes was displaced almost exactly one pane to the left as it was put into a strip of covers. Then, when the cut was made, the

right-hand 'booklet' contained just the one-fourth inch strip of sheet margin which, normally, would have been trimmed off. Note the perf holes along the left edge of the strip. It is interesting to find four color-registration bars on the right side (and a piece of a fifth, at the very bottom). The bars are, top to bottom, black, yellow (which didn't photocopy, but is opposite to the word 'use' in the text), green, red, and the sliver of black." This is a wonderful piece to include with a display of "F" booklets.

To show that "obvious" EFOs are not so obvious to the general public, John Hotchner sent us the used examples of Owl and Jack London booklet stamps shown here. (The owl stamp is on cover, so its edges did not copy well.) Each stamp shows a nice southerly miscut that includes a portion of the cross register line from the tab of the pane below it on the printing sleeve.

In February 1991's *The EFO Collector* we tentatively reported that "folded-style" booklets that had blank panes in them are dummy booklets, not EFO booklets. They have been appearing in auctions, with the panes sometimes described as "albino panes." Technically, if a pane is albino, it should bear an uninked intaglio impression. The panes we have examined carry no such impressions, nor have they any traces of ink or tagging. This is one of several reasons that we are now almost certain that these are dummy, rather than EFO booklets; accordingly, we suggest you buy them as dummy booklets.

Continued on the next page

Little Jack Horner--

Continued from the preceding page

In contrast, we have received reports of partially-printed covers with normal stamp panes inside. These, we think, should be classified as EFO covers.

In our February report (page 3 of the Collector) we mentioned a report of a \$1.10 Flag booklet, Scott BK144, with only a red (no blue) impression on the cover. Forget it: the report was based on a photocopy from a machine that dropped out the blue and reproduced only the red inscriptions.

**Canada Color
Oddity--**

We have three replies to our cry for help in identifying that strange stamp in our last issue-- a Canada Scott 142 that is almost black instead of green.

Canada, Scott 142

From Eastern Auctions, Bathurst, N.B.:
"Howard-- It's a changeling. --Gary"

From Saskatoon Stamp Centre, Saskatoon, Sask.: "These are colour changelings caused by chemicals or atmospheric conditions. I have some of these in my reference collection. I consider them to have little or no value. --John Jamieson"

From John Hotchner, Falls Church, VA:
"The enclosed [stamps, shown here] seem to me to go a long way toward solving this mystery. Your stamp, an intaglio product like them, seems to be chemically altered-- on purpose or by accident, who knows-- but the paper of the front shows the same type of discoloration as the samples, and the 'new' color is surely within the changeable range. --John"

EFO Post--

UNITED STATES ERRORS. Selected imperfs and misperfs; coil and sheet stamps. Fast service, ironclad guarantee. I'll send you a FREE list, with photographs. Send your name and address today. Mill Creek Limited, 22833-Bothell Way SE #1103, Bothell WA 98021-9365. (EFOCC member #812.)

EARLY USA COLLECTOR seeks paper folds and margin copies with small engraver's hash marks of the Black Jack issue (#73, #93) for upcoming exhibit and eventual book. Send with your price or for an offer to Bob Gesell, Box B24B, Ann Arbor, MI 48107.

Chemical Transformation Specimens

The EFO Collectors' Club--

The Errors, Freaks and Oddities Collector's Club was formed in 1978 to provide those interested in EFOs the opportunity to obtain and share knowledge. It is the only U.S. society devoted exclusively to the EFO collector. Its major vehicle is *The EFO Collector*, published six times a year; it contains EFO-related articles, a highly active EFO mail auction, and ads; each member can place three free classified ads per year.

The EFOCC offers its members access to an exhibit critique service; holds a regional or national meeting each year in conjunction with a major philatelic exhibition; and provides special awards to exhibits containing EFO material.

Errors, freaks and oddities can be found in every philatelic area: stamps, booklets, plate number coils, precancels, test labels, cancelations, postal stationery, postal markings, meters-- and the club and its journal encompass all of these forms. Since 1978 the club has grown to become an international organization of more than 300 members. It is affiliate #103 of the American Philatelic Society. Numbered among its members are some of the country's best-known and most knowledgeable philatelists, exhibitors, and authors. We would love to have you join them. Membership in the EFOCC is open to all interested collectors. Please fill out

and mail the membership application coupon below.

Membership, U.S. and Canada

First-year's dues for residents of the United States and Canada are \$13 (subsequent years, \$12.)

Membership, Overseas Residents

For overseas residents, the initial year's dues are \$26, U.S. funds (subsequent years, \$25.) To ensure timely delivery of *The EFO Collector*, airmail is used to all destinations outside the United States.

Life Membership

A one-time payment of \$210 (United States and Canada) or \$440 (overseas) will make you a life member of the EFOCC. Never pay dues again! Be assured of the benefits of membership, including *The EFO Collector*, during your lifetime.

If You Are Already a Member

The last four digits of the number to the right of your name on this issue's mailing label represent the month and year in which your membership expires. If it reads 0891 (August 1991) or earlier, use the coupon below to renew and assure receipt of the next issue.

To: James McDevitt, EFOCC Secretary, 1903 Village Road, West, Norwood, MA 02062-2516.

I enclose my check or money order to cover my membership in the EFO Collectors' Club. This is for:

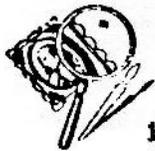

- New membership (\$13, U.S. and Canada; \$26 overseas)
 Renewal (\$12, U.S. and Canada; \$25 overseas)
 Life membership (\$210, U.S. and Canada; \$440 overseas)

Vincent Kovaluskie: Responses From the EFO Community--

I sent a brief questionnaire to 200 collectors and dealers with whom I've previously dealt, and received responses from 77. Here are the questions and a summary of the replies:

1) How long have you been collecting or dealing in EFOs?

The average for the 77 responders: 3.2 years.

2) How did you get started?

Most prevalent answer: *At an auction.*
But other typical responses were: *Just touched by fancy. Found a misperf. Found a color shift.*

3) What is your principal area of collecting or dealing?

Here there was a broad spectrum of replies, from *U.S. to worldwide covers to Christmas seals.*

4) What, in your opinion, is the most popular EFO?

Hands down, the majority favored *The inverted Jenny, Scott C3a.*

5) Do you believe the EFO market to be strong?

Answers were *Yes, 47; Average, 2; No, 28.*

6) Would you be in favor of a general EFO price guide?

Yes, 58; No, 14; 8 respondents mentioned the existing Datz catalog. While some believed a catalog made up from auction realizations would be useful, others felt it would destroy the market by inducing the manufacture of fakes.

7) In what age group are you?

Under 18 years, 0; 18-30, 11; 30-40, 18; 40-50, 27; over 50, 21. These answers gave me concern: With no one under 18, and the majority over 40, what does the future hold for EFO collecting?

Stamp Theft--

VEE KAY Stamps, of 115-04 Lefferts Blvd., South Ozone Park, NY, 11420, reports a burglary. It occurred between the hours of 2 and 5 p.m. Sunday, June 9, 1991. Stolen were:

U.S. used stamps, catalog numbers 1598 to date; airmails; special deliveries; postage due; back of the book; and cut squares. These were organized by catalog number in #4 glassines stored in a green cardboard file box.

U.S. and worldwide covers in a small album, including U.S. freak entires: albinos, misregistered dies, UX39 inverted surcharge.

1979 Susan B. Anthony dollar on first-day card; U.S. fractional currency; U.S. 2c pieces.

Canon "Typestar" typewriter #95 20 33228; checkbook; savings account book; 8"X11" manila files.

If you have any information pertaining to this theft, please call Officer Kelleher at 718-845-2211. The case number is 7755.

Howard Gates:

Canada EFOs: Some Recent Offerings--

Scrutiny of the Scott *Specialized Catalogue of Canadian Stamps* reveals that until 1946, almost every sheet stamp of Canada could be found imperforate. That doesn't mean that the imperforates are common: one glance at the prices for these classics tells you differently. During the same period, imperforates of the coils and booklet panes seem almost non-existent.

But from 1946 on, major errors of the stamps of Canada, such as imperforates and color omissions, appear to be scarce as hen's teeth. One notable exception is, of course, the 5c St. Lawrence Seaway of 1959 with center inverted, Scott 387a, of which 400 are known. The catalog price is C\$15,000.

Two recent dealer's catalogs have come our way: those of Saskatoon Stamp Centre, Saskatoon, SK, and Ivy Shreve & Mader, Dallas, TX. From these we have selected, to present here, some of their recent offerings of Canada EFOs. Those presented are stamps issued in 1969 and later, when, apparently, the error rate increased from that in the 1946-1968 period. Again, though, the prices suggest significant scarcity of errors, both major and minor. Prices shown are are Scott catalog or dealer's estimates, and are given in Canadian dollars.

6c orange Centennial coil of 1969, imperforate pair, Scott 468Ac, C\$350.

5c Children Praying (1969 Christmas issue), black omitted, Scott 503a, C\$2,250.

6c Spring of 1971, imperf. pair, Scott 535a, C\$1,000.

7c Autumn, 1971, gray inscriptions ("Autumn Autumnne Canada 7") missing, Scott 537a, C\$4,000.

7c Snowflake (Christmas 1971), perf. shift, Scott 555var., C\$19.50.

1c MacDonald, 1973, perf. shift, Scott 586var., C\$37.50.

2c Laurier, 1973, "design change" perf. shift block of four, Scott 587 var., C\$99.95.

And From Nashville: Beating the Rate Increase--

John Campbell, that ardent seeker of used EFOs, sends us a cover that reached the State of Tennessee Dept. of Safety with, as John says, "...two phoney stamps on it. Got away with it, too."

John reports that the Dept. of Safety has a new system, and he is now getting upwards of 75,000 [covers for examination] per week. As he says, "This will keep me busy." Believe it!

Tennessee Dept of Safety

Re In. 37249-2000

May Harrisburg Show--

A regional meeting of the EFO Collectors' Club was held in conjunction with the Keystone Federation Stamp Show in Harrisburg, PA, 24-25 May 1991. Jim McDevitt, club secretary, conducted a seminar on the terminology of EFO collecting. Members Joan Bleakley, John Hotchner and Clyde Jennings comprised the show's distinguished judging panel.

Winners of EFOCC best-in-show ribbons were Paul Schumacher, first place, for his exhibit "Not Quite President of the United States," and Charles Luks, second place, for "Errors in Stamp Design."

MIDAPHIL 91--

The Collectors Club of Kansas City presents MIDAPHIL, "the largest stamp show between Chicago and Denver." It is to be held October 25-27, 1991 at the Hyatt Regency Hotel, Kansas City, Missouri.

The Errors, Freaks and Oddities Collectors' Club will be well-represented during this show, whose theme is "20th Century Philately." There will be an EFO seminar each day of the show, a Friday night Dutch-treat dinner, an informal Saturday morning breakfast, EFO exhibits and EFO dealers. A club table will carry EFO material for sale, EFO literature, and perhaps a book auction. There will be a special exhibit, arranged by Jacques C. Schiff, Jr., of the "CIA invert"-- the \$1 Americana Rush Lamp and Candleholder with the "flame" inverted. EFO door prizes for youths and adults will be provided by Schiff and member Dennis Ryan. The club will provide a grand prize for the best exhibit with substantial EFO content.

After the Saturday morning breakfast, a membership meeting will be held. It will afford an opportunity for members to bring along and brag about one or two EFO items and to ask questions about puzzling EFO items. Several EFOCC members prominent in our branch of the hobby will be there to provide answers.

Member John Hotchner (P.O. Box 1125, Falls Church, VA 22041) is coordinating our participation. Please drop him a postcard if you're planning on being at the Dutch-treat dinner or if you're available to help staff the club table for an hour or longer during the show.

The Hyatt Regency Hotel is near the Hallmark Crown Center, and is easily reached by the KCI Express Bus, which leaves regularly from gate 63 of the Kansas City International Airport. The fare is about \$10 one way, \$19 round trip. Taxi fare is about \$30.

The Hyatt chain has a toll-free reservation number (1-800-233-1234). When reserving space, state that you are attending MIDAPHIL 91 to assure you are given the preferential rate.

John M. Hotchner:

**To Expand Your Collecting Horizons,
Consider Foreign EFOs--**

Do you collect vertically or horizontally? No, I'm not implying that you stand up or lie down as you work with your stamps. I'm asking if you collect the EFO material of a country from the first stamp to the most recent-- "vertical" collecting-- or whether you collect a single type of EFO, such as color misregistrations that tend to pool in one time period-- "horizontal" collecting.

Most members of EFOCC seem to fall into one of these groups; and the country of choice is the U.S.A. for residents of the U.S. and Canada for residents of Canada.

Nothing is wrong with this, but I'd like to suggest that you may be missing a great deal of fun and a quantum leap in challenge if you are ignoring foreign material and not collecting diagonally across the full worldwide range.

It is surely beyond anyone's purse to collect everything that exists in the EFO sphere worldwide. But it is still possible to cut across the entire realm of philately by collecting worldwide EFOs of a specific type or area.

For example, my worldwide collection of stamp separation EFOs started out as a vertical collection of all U.S. EFOs. I narrowed that, in the interest of economy, to one EFO of each different type and cause. There was no need to bother with piling up all the 1869 inverts; *one* would do because all were created in the same manner from similar equipment (I'm still waiting for that *one*!)

I next began to notice that there is a great deal of inexpensive EFO material from other countries, and much of it has causes that differ from anything in the U.S. because the production equipment or process is unlike that used in the U.S.

Here again, I had to make a choice; I chose to continue my "one-of-a-kind"

collection, but to change my emphasis to learning everything I could about stamp separation worldwide, using worldwide EFO material to learn about the capabilities, faults, and corrective changes in production equipment.

Foreign "imperforate between"--
two examples.

I've included, as objects of my search, both foreign and domestic EFOs used on cover.

I'd been at this for about fifteen years when I looked up from my desk to realize that my pursuit of worldwide material had taught me a tremendous amount about worldwide philately. It was painless learning that enabled me to better appreciate not only the stamps and postal history of my own country but those of other nations that I see in exhibit frames, in articles, and in the collections of friends.

I believe that most of us drift into collecting patterns that are based on the most readily available material. I suggest that you can benefit in many ways by taking control of these acquisition decisions. It is a good idea to pick up foreign items that interest you when you find them available in your price range, even if you don't do anything with them right away. Eventually, that small box in which this material is accumulating will beckon, and new enthusiasm will be found.

To The Editor--

I noted your call to hear from members in the June issue of *The EFO Collector*. My collecting interest is color shifts and certainly I would enjoy writing an article on that subject when I have learned more. [We would be delighted to publish it. --Ed.]

I am sure that you would agree that the most enjoyable aspect of EFO collecting is finding freaks and oddities in stamps obtained at the post office. I enclose my favorite discovery, the "sunburned faces" on the 1989 Botticelli Christmas issue, Scott 2399. I enclose a normal copy and a "yellow faces" copy for contrast. [Sorry, they don't show in black and white. --Ed.]

--Stuart V. Bradley, Jr.
Alexandria, VA

I wonder about the possibility that you might not get any response to any article-- the membership just might not be of that mind! [We received no

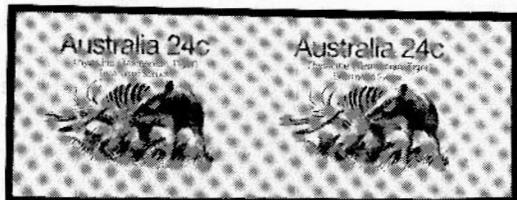

comments, favorable or otherwise, on Mr. Marshall's articles on erroneous cancelations. --Ed.] It will be interesting to see what happens, if anything, to your June message!

--Ray Marshall
Glendale, CA

Just got my June copy of *EFO Collector*....I hope your plea "A Little Louder Please" will have a therapeutic effect.

I have an idea for an article..."The Poor Man's EFOs, United States." Oh, I have here and there a few EFOs that weren't giveaways, but they are the exceptions. Many of these were bought over the local post office counter by me or fellow collectors. I could do one on EFOs of the British Commonwealth, too. [I'd love to get them both. --Ed.]

--Owen Cranmer
Clarkdale, AZ

GREAT BRITISH ERRORS

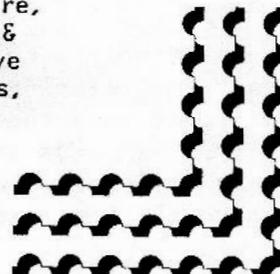

For 20 years we have been the foremost European dealers in freaks and errors. Our unrivalled expertise is backed by the most extensive stock.

The very fact that we have handled more G.B. and Commonwealth major errors than any other dealer only goes to prove that it pays to contact B.Alan.

Classic Invert Brings \$8500--

The Scott and Datz catalogs give the price of the 4c Pan American Automobile of 1901, center inverted, Scott 296a, as \$10,000 unused (there are none used). Suburban Stamp, Inc., reports that it realized \$8,500 in Suburban's May 11, 1991 auction.

Substantial realizations were also reported to have been achieved for some of the other error lots sold in that auction. Examples follow.

4c Winslow Homer, 1962, Scott 1207a, horizontal pair imperf. between, \$4,000.

6c Disney, 1968, Scott 1355c, top margin block of four, imperforate, \$1,250.

8c Bicentennial, 1971, Scott 1432a and 1432b, strip of three with top stamp gray and black omitted; middle stamp absent gray and part of black; bottom stamp normal, \$1,200.

8c Emily Dickenson, 1971, Scott 1436a, black and olive omitted, \$800.

8c Tom Sawyer, 1972, Scott 1470c, yellow and tan omitted, \$1,100.

8c Stamp Collecting, 1972, black omitted, Scott 1474a, \$1,050.

NOTE: The following lots are not shown in the photos. You don't want to miss these: #56B, 106B, 120B, 156, 164, 165, 166, 179 and 183. Good Luck.....Joe Licata

To Our Members--

It is with great regret and sadness that I am announcing my resignation as EFOCC Auction Director. I have constructed your auctions for more than five years, since Auction #26. My last auction, #57, will be in the October 1991 issue. This decision has been made in order that I can spend more time with my family and related interests. I will continue to be an active member of the club and, who knows, may even consign a few items to the auctions now and then.

I would like to take a moment to thank John Hotchner, Dan Pagter, Scott Shaulis and Howard Gates, who had the confidence in me to do the job and who made themselves available whenever I needed help. I will certainly be available in

any way I can to assist my replacement and make the transition as smooth as possible.

I will miss the pleasurable correspondence and phone conversations that I had with the ever-growing membership and dependable consignors. Their interests, comments, and general good nature was appreciated and looked forward to. I may eventually get to meet some of you in person at an upcoming stamp show or conference.

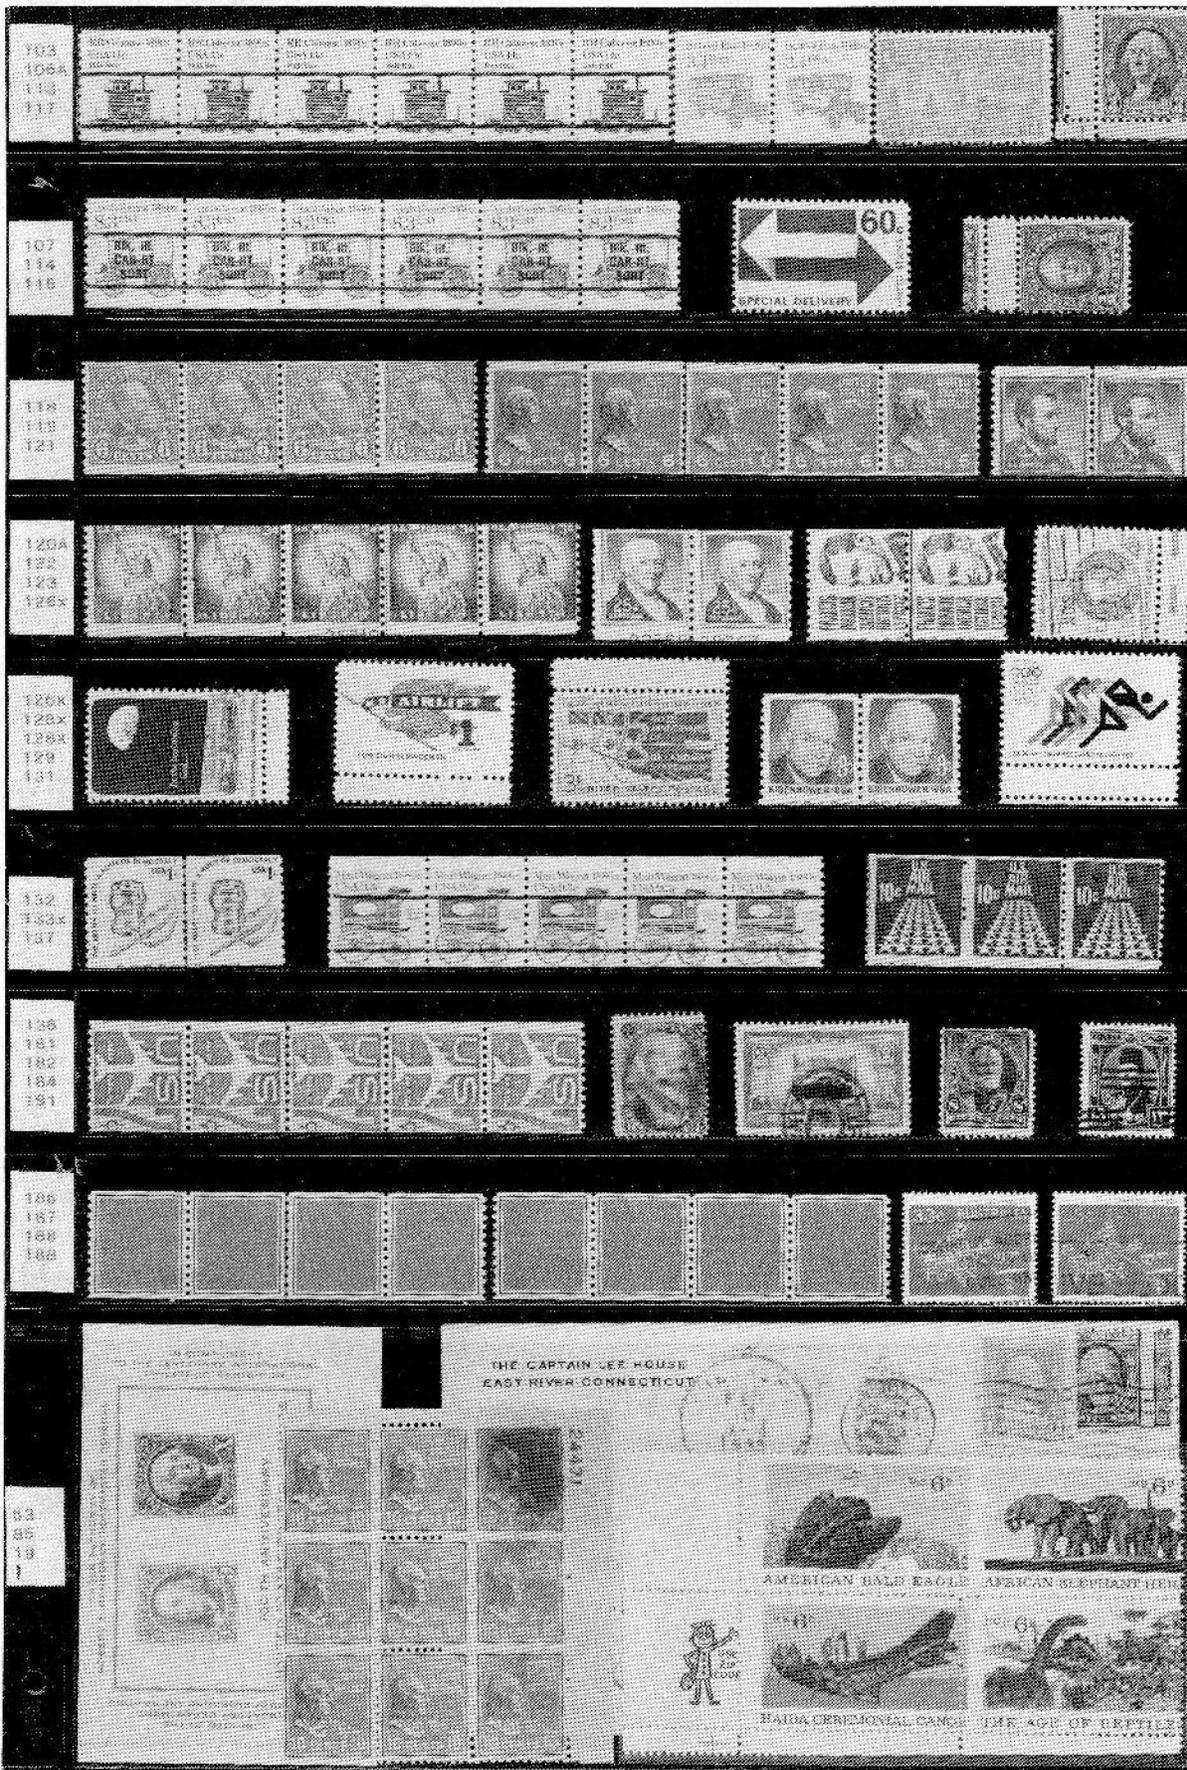

I wish the best of health and happiness for all of you.

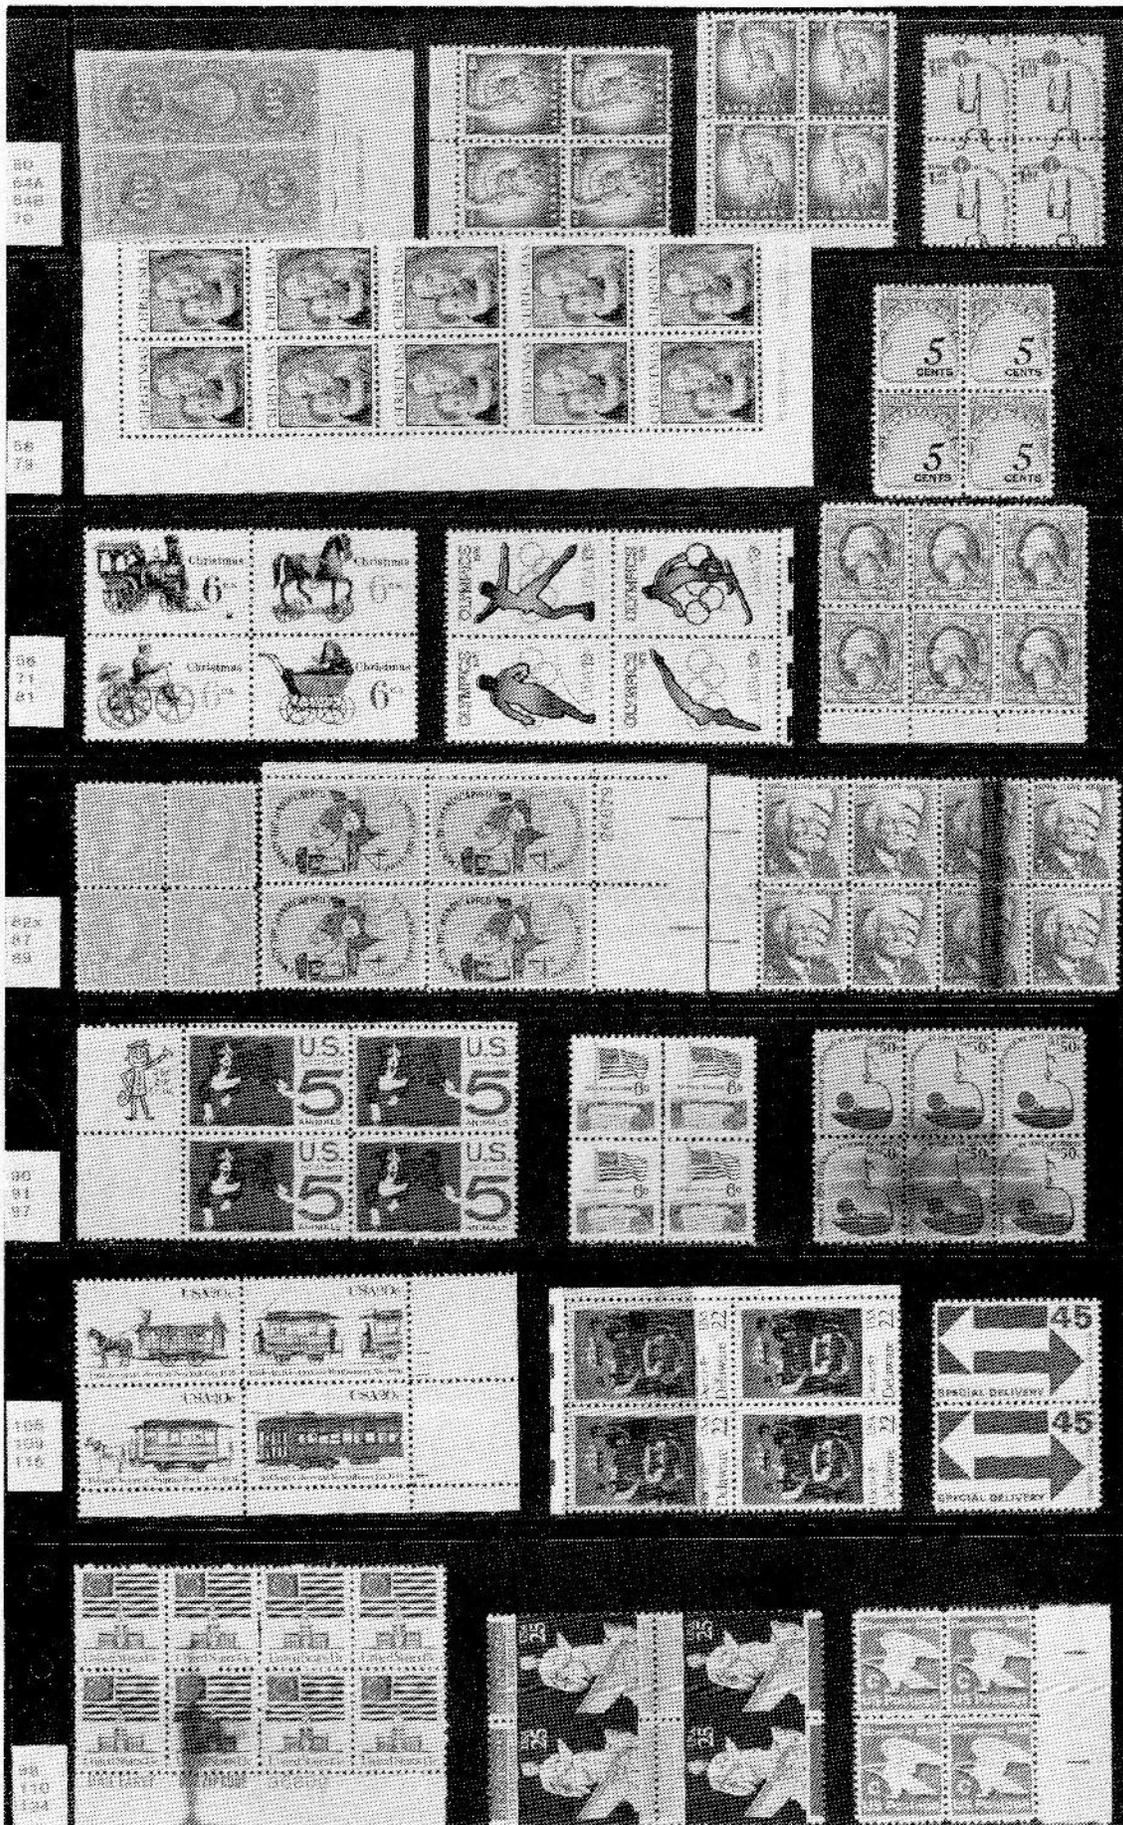

--Joe Licata
