Our Executive Search Program Stalls--

You'll notice something odd about the ballot for election of EFOCC officers on page 16: There's no candidate for President. Our Nominating Committee came up with some very good possibilities, all of whom quietly declined. Our constitution forbids me from continuing in the office after June 30, even if you wanted me and I wished to continue.

It seemed unwise to further delay this issue of *The EFO Collector* in the hope the Committee would find a candidate to place on the ballot, so here it is. Perhaps the June issue will contain better news. You will note that you are asked to vote for (or affirm) two of the three candidates for Executive Board Member at Large. Under the current (very awkward) constitutional process, all three candidates have been screened twice: first, by the current Executive Board, and second by the Nominating Committee. Therefore, their biographies are not presented. It appears that two Members at Large will be needed-- and perhaps a third as well-- to bring the Board complement to seven.

Mosher: Booklet Error/Freak Polygon Oddity Panes (bEFpOps): The "Final Exam" Results

8

Page 15

Goodbye, Columbus--

(Inspired by the conjunction of March 17, April 1, and the quincentennial.)

A while ago I was in Spain, digging for my roots. The shades of my grandmother, Victoria Guilbert y de Niebla, urged me to look in the town of Niebla, west of Sevilla. I explored the massive Moorish walls and the cathedral, but it was in the dirt-floored saloon that I learned that the town's only Niebla family had moved to Barcelona. I gave up and drove west to Huelva and Palos. At La Rábida Monastery I was shown a conference room furnished with an ancient refectory table and high-backed wooden chairs where, the guide said, Christopher Columbus had sat with his captains, working out the details of their prospective journey to the unknown. I was totally awed.

But I have come to believe that the Irish discovered and settled America long before Columbus. Ancient artifacts abound to prove it. I've found charred remnants of a clay pipe in the ashes from my Los Angeles incinerator; in San Diego, a rusty disk at least a thousand years old, bearing the barely legible legend, "Kiss Me, I'm Irish;" an ancient decayed board floating in our lake in Virginia saying, in Celtic cipher, "And if you inherit a donkey, may it be in foal." But the clincher, and one that dates the Irish discovery, is the antique Irish whiskey bottle that I found in a construction excavation right across the street here in Florida. The label carries the date "750 ml," and that's a full 742 ml before Columbus.

Foreign EFOs Featured In the Philatelic Press--

Stamp Collector, in its February 8, 1992 issue, presented three articles that featured significant foreign errors.

Swedish columnist Christer Brunstrom has often remarked on the frequency of United States stamp color and perforation errors and the relative infrequency of such errors on Swedish stamps. He's right, of course; and he points out that, in the U.S., "this has led to a new collecting specialty." [That's us.] But, as he says, "No system is perfect," and illustrates his statement with the spectacular Swedish January 23, 1986 STOCKHOLMIA '86 booklet error shown here. Only the offset orange and light blue were printed on the pane. All the intaglio printing-- blue, green and violet -- is missing. At least error booklets are in the philatelic marketplace.

England World-Cup Winners 1967 commemorative from Maldive Islands, left stamp missing country and value

Stamp Collector also published a report by Sam Houston Duck Co. owner (and EFOCC member) Bob Dumaine of the finding of "a single sheet of the 1990 Australian Federal Duck Stamp \$8 overprint. . . with the sheet inverted."

James Jude, executive director of the

Australian Wildlife Fund, explained the

booklet pane missing intaglio blue, green and violet

Swedish STOCKHOLMIA '86

What makes this particularly fascinating is that the third stamp in the booklet was a joint issue with the United States; the U.S. version of the joint-issue stamp is Scott 1583. Hope that doesn't indicate that the error virus is catching!

Philip Halward, British correspondent for Stamp Collector, devoted a major portion of his February 8 column to a discussion of the demand for and pricing of errors. And he presented a recently-discovered error in a Maldive Islands stamp, the 251 issue of March 22, 1967 honoring the English victory in the soccer world cup. The error stamp is the left-hand member of the pair shown here; the territorial identity and the denomination are missing. probable cause of the error. "The overprints were produced by a small jobbing printer using letterpress machinery. . Each time the printer parted the stock to place sheets for overprinting in the feed tray of the printer, he did so at the blank sheet which occurs in the bulk stock at each hundred sheets. The blank sheet masked the next printed sheet, and in this case as the blank sheet was fed through the machine, it was revealed that the feed stock was wrong way round. This was corrected without realizing that one sheet had already passed through the

Continued on the next page

Foreign EFOs Featured In The Philatelic Press--Continued from the preceding page

press." [Sounds much like the process by which U.S. inverts are created, doesn't it?] The error sheet is shown here. February 12 of this year; the presale estimate was \$15,000 to \$18,000; actual realizations are not known at this time.

Australian Duck Stamp sheet with inverted overprint

Michael Schreiber, writing in Linn's Stamp News for February 17, 1992, has a timely discussion of the errors in France's 1985 St. Valentine commemorative, which pictures a loving couple in an imaginary scene in the countryside. The most important of these errors is the stamp in which the dark-blue denomination (2,10) is absent. Two such errors, one of which is shown here, were offered at Sotheby's (London)

French St. Valentine stamp absent its denomination

Inking-in roller error causes absence of facial features on top stamp of French St. Valentine pair

A second kind of error on the St. Valentine stamp is one that we would classify as a freak caused by a broken inking-in roller. In the pair shown here, the top member has the facial features of the lovers missing. The illustrated pair was advertised in a French stamp magazine late last year for about \$400.

Strange Used Flag Coils Keep Showing Up--

20c Flag over the Supreme Court

Plate number coil guru Ken Lawrence, writing in Linn's Stamp News for February 17, reported that Nebraska collector Jeff Steinman found the item illustrated below while sorting a common mixture. It is a piece containing three imperforate strips of five of the 1981, Scott 1895a 20c Flag over the Supreme Court coil. Quoting Lawrence, "These stamps obviously were used by someone who did not see special value in stamps that lacked perforations.

"The roller cancel is dated July 13, 1983, from Steinauer, Nebraska. . . .Imperforates of the 20c Flag coil are more common than any other major U.S. error." (*Copyright* 1992, Linn's Stamp News. Reprinted with permission.)

22c Flag over the Capitol

Tamarac, Florida dealer Michael Banas trustingly lent your editor the piece shown below. It looks quite normal in the photograph-- just an ordinary 1985, Scott 2115, 22c Flag over the Capitol coil, used on piece with a Skokie, IL Nov. 5, 1987 postmark. But it's not normal; the star field of the flag is printed in black instead of blue. This variety has recently received a Scott number, 2115c. We understand that mint pairs were sold in Jacques C. Schiff, Jr., auctions in May and December 1989 at prices of \$650 and \$675. What do you suppose the used-on-piece item should bring?

Report From Nashville--

Our Nashville correspondent, John P. Campbell, writes, "Our stamp show [Nashville Stamp Show '92, February 22 and 23] went off with a bang. The temp was 71° on Sat. and the crowds came all day long. Then came Sunday. What did it do? *RAIN*. That didn't keep the people home. They *still* came out to the show in great numbers all day long."

John always includes something special with his report. This time it's a cover franked by a 29c stamp that shows the Mariner 10 spacecraft and the planet Mercury-- and, on this stamp, what appears to be a bright magenta space creature eyeballing the spacecraft.

Bruce H. Mosher for the Booklet Study Group:

Booklet Error/Freak Polygon Oddity Panes (bEFpOps):

The "Final Exam" Results--

My "Dozen Lessons About bEFpOps" in the December 1991 issue of *The EFO Collector* concluded with a decagon and was followed by a "final exam" that was in the nature of a challenge: *Can you show me a bEFpOp with eleven or more legitimate sides*? Three EFOCC members responded to my challenge with extraordinary booklet error/freak polygon oddity panes; this article is devoted to these greatly-appreciated responses.

Third-Place Winner

The third-place response came from Clay Stabler of Ponte Vedra, Florida, who sent photcopies of some of the bEFpOps in his collection. His most complicated is a double-foldover decagon which, though fascinating, missed meeting the challenge by one side. It is a member of the Scott 1213a, slogan 3, family of booklet panes, and is shown in figure 1. This bEFpOp has apparently tired badly from traveling among collectors and dealers, as its lower right appendage has completely separated from the fold (pun intended).

Figure 1: Clay Stabler's Scott 1213a decagon bEFpOp (Third-Place Winner) Clay's more significant (to me) final exam entry is his corrective observation that the third trapezoid example in lesson 6 of my December article isn't one: it hasn't two parallel sides, and is simply a garden-variety quadrilateral. Thanks, Clay; you were the only one to report this correction.

Second-Place Winner

The second-place final exam blue-book was turned in by Mike Perry of Kelso, Washington. Mike sent photocopies of a nonagon bEFpOp from his collection, figure 2, and the eye-catching, thirteen-sided,

Figure 3: Mike Perry's Scott 1213a thirteenagon bEFpOp (Second-Place Winner)

double-foldover bEFpOp drawn from an auction catalog, figure 3. I'll call this Scott 1213a example a "thirteenagon," because I have no idea what the proper terminology is for such a polygon. Thanks, Mike, for sharing these with us.

Grand-prize winner

The outstanding paper in the bEFpOp final exam came from Larry Sullivan of El Paso. Texas. Larry sent a copy of his fantastic, fourteen-sided, double foldover Scott 1510c pane from his "Philatelic Faux Pas" EFO exhibit of fifteen years ago. This remarkable piece, shown in figure 4, contains portions of 29 Scott 1510 stamps. including, in the middle segment, a beautiful vertical pair imperforate between. Larry tells me that this imperf-between pair triggered Scott to list it as the "1510f" entry in the Specialized Catalog of United States Stamps. Congratulations, Larry! You win a copy of my monograph, Discovering U.S. Rotary Booklet Pane Varieties 1926-1978.

Larry's "fourteenagon" bEFpOp has never before been illustrated in the philatelic literature, so the remainder of this article will be devoted to its origin and characteristics.

Acquisition of the Prize-Winning bEFpOp

Larry says, "Over the years I became acquainted with a USPS philatelic clerk in a neighboring town. He knew that one of my major interests was EFOs, since I often showed my exhibit called 'Philatelic *Faux Pas*'. Every time he received new stock, he checked for EFOs and brought me several minor perf-shifts and color misregistrations.

"On one occasion, he called me at my office and stated that he wanted to drop by my house that evening to show me a new find. I lukewarmly agreed, expecting still more minor items. When he arrived, he handed me a complete and unopened booklet, and suggested I peek through the side opening of the cover. I was astonished to see several folds of paper inside, but I couldn't really tell exactly what it looked like except that it was folded over, miscut, and stapled in place.

"To make a long story short ('Too late, they cried!') we negotiated a price of \$50, I paid him, and he left. He was not yet out of the driveway before the cover was off and the staples were removed, and there was the monster 'fourteenagon'; the other four panes were disgustingly normal."

Booklet Error/Freak Polygon Oddity Panes (bEFpOps): The "Final Exam" Results--Continued from the preceding page

Larry goes on to say, "During one period in late 1980 [John Hotchner] was doing a series [for *Linn's*] on EFO exhibits, and as a contest he asked readers to send him photocopies of exhibits they had shown. I sent him a copy of my 'Philatelic *Faux Pas*', and won first prize, a copy of the Dr. Stanley B. Segal book on EFOs."

Background: 400-Subject Book-Stamp Layout

The Scott 1510c 10c Jefferson Memorial 8-stamp booklet panes were printed from 400-subject book-stamp plates on Bureau of Engraving and Printing web-fed presses. The printed web was sheeted for booklet assembly by cutting into 400-subject sheets of the general configuration illustrated in figure 5. The sheeting cuts occurred along the horizontal plate joint lines that exist across the very top and bottom of the figure 5 illustration.

Each 400-subject sheet contains 50 8-stamp booklet panes when eventually cut along the thin horizontal and vertical lines shown in figure 5. Many of the booklet panes printed from these plates are platable, so the fifty positions are numbered as shown in the circles. The numbering convention was established by Dr. William Bush of the Bureau Issues Association in the mid-1970s and has become the numbering standard used by collectors and dealers.

Technically, there are in figure 5 a few inaccuracies in the locations of the EE bars, EE dashes, and process marks, and in the size of plate number representations. But the drawing is totally adequate for the following discussion of the generation of Larry Sullivan's prizewinning piece.

Continued on the next page

Booklet Error/Freak Polygon Oddity Panes (bEFpOps): The "Final Exam" Results--Continued from the preceding page

O-Subject Book-Starrip Plate Layout

Fourteenagon bEFpOp Generation

The unfolded fourteenagon EFO contains two characteristics that make it possible to readily locate it within the 400-subject plate layout of figure 5:

1) The horizontal EE bars at the left side of the left-hand segment place this portion along the left edge of the 400-subject sheet;

2) The bottom straight-edge on the left-hand segment exhibits traces of the bottom joint line. This uniquely defines its position to just below position 45.

Using these two clues, we can place Larry's fourteenagon at the shaded location shown in figure 6.

The sheet folds shown by the dotted lines in figure 6 can be deduced from the two

folds in Larry's fourteenagon and its location on the sheet. The first fold was at almost a 45 degree angle upwards from the paper; the second, steeper fold was in the opposite direction, under the paper.

Interesting Characteristics of the Fourteenagon

1) The position 37 booklet pane survived intact. Only a small foldover exists in the lower left corner of the tab where it is attached to the second segment. Normally, the characteristics of a separate position 37 pane are not sufficiently definitive to establish its plate position more precisely than as one of ten positions in the second column of the sheet; only when it is found attached in a telltale foldover, as in the fourteenagon, can it be accurately plated.

2) Curiously, the two sheet folds appear to meet just below the lowest EE bar at the left-hand edge of the position 26 pane, as shown in figure 6. Trial locations of the two folds that did not intersect at that point failed to produce the illustrated fourteenagon.

3) Before this particular 1510c sheet was being stacked and collated for booklet assembly, the left-hand marginal strip was certainly trimmed away at the cut line shown in figure 6, so that the lower-left sheet plate number could not possibly appear regardless of the locations of subsequent folds and cuts. This left-side trim was a revelation to me: earlier 400-subject book-stamp sheets (e.g., Scott 1284b, 1393a, 1395a, 1395d) were not trimmed or not trimmed closely, as evidenced by the appearance of plate numbers on other foldover examples (see figure 2). Booklet Error/Freak Polygon Oddity Panes (bEFpOps): The "Final Exam" Results--Continued from the preceding page

Figure 6: Plating heritage of Sullivan's fourteenagon bEFpOp

Booklet Error/Freak Polygon Oddity Panes (bEFpOps): The "Final Exam" Results--Continued from the preceding page

4) My reconstruction efforts showed that the placement and angles of the two folds are extremely critical to recreating Larry's fourteenagon. A slight movement of the folds causes a differently-shaped piece to result. In fact, if the first fold were just a little farther to the left, the bridge between the position 37 pane at right and the second segment to its left would not exist at all, and Larry's spectacular EFO would not have been created.

5) In this configuration the two booklet staples produced nine holes in the piece: four at the left side of the upper right rectangle (the position 37 pane); four across the top of the vertical rectangle; and one at the extreme edge of the selvage on the lower left segment. The top prong

EFO Post--

WANTED: Any EFOs for Scott 1548, Sleepy Hollow; 1940, Christmas Teddy Bear; 2168, Margaret Mitchell; 2446, Gone With The Wind. Send description and price to Gary Denis, P.O. Box 11447, Norfolk, VA 23517.

SKYLAB, Scott 1529, pre-print paperfold to TRADE ONLY for other U.S. pre-print paperfolds. Describe (don't send) yours to Earl McAfee, Box 3266, Champaign, IL 61826.

FOR SALE: Complete run of *The EFO Collector* from #1 to date. Make Offer. Scott A. Shaulis, Arbutus Village #D5, Elgin Dr., Johnstown, PA 15904.

HAND-COLORED EFO FDCs: Whenever possible, I produce beautiful FDCs of U.S. new issue EFOs in very limited editions. These sell out quickly, but I'm seeking customers for future issues. For information, send SASE to: ANAGRAM, 6301 Poindexter, Rockville, MD 20852.

Interested in buying horizontally misperfed 37c Millikan stamps (U.S. Scott 1866). If not for sale, photocopies would be appreciated; doing research work. Thomas Smith, EFOCC 454, P.O. Box 23149, Phoenix, AZ 85063.

NEED ODD or curious 651, 703, C11, C23, CE1, CE2, 771, 832, 833, and 834. Write first. Larger pieces of other EFOs. Advise your needs. James Dysarczyk, Apt. B270, 28601 Imperial Drive, Warren, MI 48093. thus pierced all three segments.

In Conclusion

If you would like to understand more about how Larry's fourteenagon was generated, photocopy figure 6, get out your scissors, and prepare to act like a BEP guillotine cutter after folding the sheet. But before folding, use a straight-edge and knife to lightly score the fold lines to insure crisp folds. (Don't cut through the paper!) Then fold the sheet in directions opposite to those described for the real EFO, in order that the cut lines surrounding the position 37 pane will be clearly visible. Cut along those lines. After cutting, reverse the folds, and you'll have a your very own fourteenagon as it appeared in Larry Sullivan's booklet.

WANTED: Honeybee EFOs. Imperfs, misperfs, bee out of frame line, bee low, or taking off. I can use them with or without plate numbers, mint or used. Bobby Reece, Jr., P.O. Box 511520, St. Louis, MO 63129.

FOR SALE: Scott 1734 misperf pair. \$7; 1529 color shift, \$6; 1690 color shift, \$7; 1856 misperf-between, \$7; 2276 color shift, \$7. All MNH. John Casey, P.O. Box 673, Rhinebeck, NY 12572.

Have several U.S. 19c Fawn mint blocks of four with one blind vertical perf. Will trade for other mint U.S. EPOs of comparable value. Mark Shofron, 3920 E. San Simeon Drive, Tucson, AZ 85718.

"Discovering U.S. Rotary Booklet Pane Varieties 1926-1978," 128-page book by Bruce Mosher, is loaded with EFO booklet pane information and illustrations. \$8.95 postpaid. Mosher, P.O. Box 033236, Indialantic, FL 32903.

FOR SALE: 1394 misperf, \$6.60; 1529 color shift, \$6.00; 1690 color shift, \$7.00; 1856 imperf-between, \$8.50; 2276 color shift, \$6.60. John Casey, P.O. Box 637, Rhinebeck, NY 12572-0637.

WANTED: Unusual worldwide perforation varieties: 1934 U.S. and G.B. Christmas seals on or off cover; and USPS markings, "body bags," printed letters, etc., explaining delays in the mail. Will buy or advise your needs. John M. Hotchner, P.O. Box 1125, Falls Church, VA 22041.

John Hotchner Wins 1991 Robert E. Manning Award--

The outstanding article of Volume XIII of *The EFO Collector* (August 1990 to June 1991) has been selected by the Manning Award Selection Committee. It is "There Will Always Be Errors. . . Thank Goodness!," written by John M. Hotchner and published in the August 1990 issue.

Mr. Hotchner, a founder of the EFO Collectors' Club, has thus become the seventh winner of the Robert E. Manning award. The award carries with it one year's free EFOCC dues which, unfortunately, will be of little use to Mr. Hotchner, who is already a life member. He will, however, become a member of the award selection committee for 1992.

The previous six winners of the Robert E. Manning award were

> 1985, Earl McAfee 1986, Howard Gates

Secretary's Report--

For recruiting efforts, a big "ATTABOY" to John Hotchner, the USPO, and Howard Gates.

--Jim McDevitt

1987, Francis Pogue 1988, Clyde Jennings 1989, Bruce Mosher and George Godin 1990, Michael O. Perry.

As the 1992 award committee comprises the three previous winners, its members will be Bruce Mosher and George Godin, co-chairmen; Michael O. Perry; and Hotchner.

Traditionally, any author whose original work is first published in *The EFO Collector* qualifies to be considered for the Manning Award, except for elected officers of the EFOCC and members of the award selection committee. Therefore, if you have in mind a potential article, you would be well-advised to submit it to the editor, Howard Gates, 135 Hacienda Drive, Merritt Island, Florida. It will be welcomed.

Letter From Romania--

Monsieur Gates.

We are grateful to Dr. John Ordway of Bangor, ME for the following translation from the French.

29 II 1992

I am writing you in French because I can express myself better than in English. My name is Munteanu Liviu, and I am a member of your club, *The EFO Collector*, with the number 832. I want to extend the validity of my subscription for the year 1992 and I want also to publish the following [enclosed] advertisement but in three different issues.

Allow me to draw to your attention that I have no dollars and, if you agree, I can pay by a valuable error, a pair imperforate between, [Scott] Romania nr. 578, [illustration nr.] A200, [35 lei brown of 1945]. I am sure that you will be satisfied that the value of the stamp [pair] will cover the necessary sum. If no member of your club wants to buy the piece I'd like to ask if you would kindly

Election Ballot--

The Nominating Committee has selected candidates for the offices of Vice-President, Secretary, and Treasurer; and has reviewed and accepted the Executive Board's nominees for Members-at-Large of the Executive Board. It has not yet found a candidate for President.

Biographies of officer candidates are as follows:

For Vice-President

WALT COLE has worked for Caltrans, the State of California's transportation activity, for 32 years, and holds a civil engineering classification. He studied civil engineering at Humboldt State College and at Ventura. His philatelic specialization started with the lc 1861, with which he established a traditional collection, including essays, proofs and covers. He currently specializes in the 3c Presidential of 1938, and has evolved prize-winning

send it back in the enclosed envelope. Allow me to express my great appreciation for your kindness, and my best wishes to you.

> --ML C.P. 45-45 70750 Bucuresti-OF.45 Romania

The cost of a year's overseas membership is \$25, and of three one-quarter-page ads is \$27. Is there anyone out there who would like to spring for all or part of the necessary \$52 in exchange for the illustrated error pair? Tell me. --Howard Gates

exhibits of that stamp. He lives in French Gulch, CA, a former mining town 30 minutes west of Redding.

For secretary

JIM McDEVITT has served three terms as EFOCC Secretary. He started stamp collecting at the age of ten, and was introduced to EFOs in 1966. He maintains a sheet of information on each Scott-listed error, a card file on each other variety, and a file of EFO clippings from the philatelic press and auction catalogs. He retired from the Coast Guard after 28 years' service, and for 12 years has been secretary of the Chief Warrant Officers' Association, USCG (New England District). He currently lives in Norwood, MA, and works as a fire dispatcher.

For Treasurer

DONALD REINKE has served three years as EFOCC Treasurer. He is an attorney by profession and a partner in the legal firm of Zimmerman, Pezzola and Reinke, P.C. He is married, has two children, and lives in Moraga, CA.

Your ballot is on the following page. Please clip, mark and mail it without delay.

The New World Discovers Columbus--

This year, 1992, marks the 500th anniversary of Columbus's discovery of America. To note it, things are cooking all over the philatelic scene.

An avalanche of new issues has already been announced by the USPS. A 29c stamp reproducing a portion of the 15c 1869 "Landing of Columbus" was released January 24 to promote World Columbian Stamp Expo, to be held in Chicago May 22-31, 1992. Six postally-valid souvenir sheets that reproduce the entire set of sixteen 1892 Columbian commemoratives will be sold as a set costing \$16.34. Release is scheduled for World Columbian Stamp Expo. A se-tenant block of four 29c stamps depicting Columbus's first voyage will be released this month.

Numerous national societies, including the APS, will be convening at World Columbian Stamp Expo. Several thousand frames of material will be displayed competitively, and there will be "fun" exhibits and a Court of Honor.

Later, in October, from the 9th through the 12th, the APS accredited show held annually in Columbus, OH (COLOPEX) will also celebrate the event.

--Clyde Jennings

BALLOT FOR THE ELECTION OF EFOCC OFFICERS AND EXECUTIVE BOARD MEMBERS FOR 1992-1994. Please mark and return your ballot, postmarked before May 1, 1992 to Louis E. Repeta, P.O. Box 16058, Charleston, SC 29412.

Vice-President: WALT COLE	or write in	
Secretary: JIM McDEVITT	or write in	
Treasurer: DONALD REINKE	or write in	

Board member at large (vote for two): TIM LINDEMUTH ____; JOE LICATA ____; MICHAEL PERRY ____.

In accordance with the EFOCC constitution, Article VIIIC, election of officers will be by majority of votes cast. Write-in candidates will be considered to have the full agreement of the nominating committee.

BEST SELLING BOOKS

U.S. Errors - 1992 Edition is the most comprehensive catalogue of U.S. major errors stamps ever published. It has become *the* standard reference for U.S. major errors. It lists, illustrates, and prices every U.S. imperforate (including all known imperf PNC strips), color omitted error, and invert.

U.S. Errors is loaded with footnotes (such as which errors usually are encountered in poor condition) and cautions about which errors are faked (and there *are* dangerous fakes out there!). Quantities known for each issue are noted. A dealer directory lists the most active dealers in the U.S. error market.

Whether you're buying or selling, or just want to be aware of what's out there in case you come across something unusual, U.S. Errors - 1992 is a must!

U.S. Errors - 1992 \$12.95 Autographed, Hardbound, Limited Edition \$30.00

Top Dollar Paid! has become one of the best selling books in philately. It's really two books in one: a concise guide to what works best in selling, and an entertaining behind-the-scenes journey into the real-life world of stamp dealing. It's been critically acclaimed as the best book ever written on the subject.

Even if you're not in the market to sell right now, perhaps the greatest service *Top Dollar Paid*! performs is to make you aware of the financial consequences of purchases you're making today. *All stamps are not created equal*! *Top Dollar Paid*! could be worth hundreds or even thousands of dollars to you.

Top Dollar Paid! \$9.95 Autographed, Hardbound, Limited Edition \$30.00

The Wild Side, the second in Datz's trilogy about the stamp business, is a journey into the side of stamp dealing you never hear about. In stories drawn from Datz's own first hand experiences you'll meet rip-off artists, credit card scammers, master's of the big con (yes, big cons are alive and well), murderers, shadowy travelling men who sell stamps too good to be true (regummed, reperfed, etc.) You'll meet a variety of con men, rascals, scoundrels, eccentrics and characters, and delightfully entertained by incredible true adventures from a side of philately you never imagined: The Wild Side! Once you start reading, you won't be able to put it down! The Wild Side \$9.95 Autographed, Hardbound, Limited Edition \$30.00

On The Road, the third in Datz's trilogy, is for every soul who's ever dreamed of running away to join the circus or imagined stamp dealing to be a travel poster existence of jetting away to distant cities, handling rare stamps every day, dining out every night, leading a life of adventure!

What an odyssey. Missed planes, broken-down cars, third-rate hotels, blizzards, thieves, wild goose chases, slow shows, enigmatic millionaires, the tantalizing promise of inverts at the truckstop in Last Chance, Arizona, and even tornados.

On The Road takes you from the bright lights of the big cities to the desolate hinterlands of Wyoming, Arizona, and New Mexico. Along the way, you'll be charmed and entertained by some of the most unconventional, unpredictable, and outrageous true-life characters in philately. On The Road \$9.95 Autographed, Hardbound, Limited Edition \$30.00

Add \$1.75 shipping per order.

Published by and available from GENERAL PHILATELIC CORPORATION P.O. BOX 402 LOVELAND, CO 80539
