APS OFFERS MEMBER SAMPLER SALES CIRCUITS

American Philatelic Society members can now request a trial sales circuit from any of the 163 existing categories with no long term commitment. The APS has long provided the Sales Division is a service to members desiring to sell stamps to other members. Acting as an agent, the Sales Division has more than 55,000 sales books valued at over $11 million. The circuits usually consist of ten books of stamps in a single category with a total net value of up to $4,000. Although the circuits may contain high priced items, most material in the circuits is priced at $10 or less.

Members who are not currently utilizing the Sales Division can see what they are missing with no long-tem~ commitment. And experienced Sales Division buyers can check out a circuit from a category which they do not currently receive. If a member likes what they see, they can ask to be added to the circuit on a regular basis. The only obligation for members requesting the Sales Sampler Circuits is to return the books containing the unpurchased material by parcel post insured for $100 and to pay a $1 insurance fund fee.

A complete list of all 163 circuit categories is available by request from the Sales Division or from www.stamps.org/aps/services/salesapp.htm. Most of the categories are for single countries although there are 22 different U.S. categories. Other popular areas may be broken into categories such as the British Victorian Era, British Pre-Elizabethan, Canada Mint, Canada Used, and Global pre 1940. All sales books are microfilmed and reviewed by in-house philatelists before being sent to members.

APS members may request a Sampler circuit by completing the in the Sales Talk column of the January 2000 American Philatelist or by sending an e-mail to sales-div~stamps.org. The e-mail needs to include name, APS number or postal address, daytime phone number, and category desired.

The Sales Division is one of the most popular services of the American Philatelic Society, a 53,000 member national organization for stamp collectors.

PRESIDENT'S REPORT IS THE EFOCC SINKING — SUNK????

Once again, we must issue a plea to members to volunteer for an officer position. This is your club - if you don't participate, the club can't survive.

We need candidates for President, Vice-President, Treasurer and Secretary. Please feel free to nominate yourself!

Please think about the way you could take a greater role in the Club. Two of our members (Jim McDevitt and Peter Rikard) are presently doing most of the work required to keep the EFOCC going. The Auction Director (Peter Rikard) has an enormous job putting together the quarterly auction for the club. The Secretary (Jim McDevitt) also has a huge job editing the EFO Collector each quarter. These two guys are doing the bulk of the work in the club. Let's volunteer and give them some help!

We just spoke to Earl McAfee, in charge of the EFOCC nominating committee. Not one person has volunteered for an officer position. Remember that without your help, we can't have a club at all. If there are no volunteers for officer positions, we may have to consider the alternatives:

to become a committee of the United States Stamp Society (formerly the Bureau Issues Association)

to disband the club entirely

Any other ideas?

So one last appeal . . . Send your nominations to:

Earl McAfee
1912 Rebecca Drive
Champaign, IL 61821

Please volunteer to do more for your EFOCC!

Respectfully,

Betsy and Chuck Berry

Errors Of A Different Kind

By Kenna Boyd

The Classics

The Empire In Australasia

The first stamps of Great Britain were hardly hot off the presses when errors appeared. The "Penny Black" had extensive repairs which produced the first re-entry. The 1841 one - penny red-brown gave us the famous "Union Jack" re-entry. From then on, most countries have had their quota of careless craftsmen and checkers.

Once collectors found their errors were now being listed in catalogs as varieties, given sub alphabet listings which also demanded higher catalog values, the race was on to discover and collect as many different kinds on the market. If good fortune came their way, they might even discover errors or varieties not yet listed.

Much fun can be had when you discover an elusive item while browsing through a dealer's lot, an old hoard, exchange or trading packets, as was the case when I found my first error - a red one-penny Tasmanian stamp. I had been collecting Queen Victoria stamps featuring the "Chalon-head' type used in the British Commonwealth. As I browsed through a dealer's packaged lot, I saw many of the stamps I might find to be beneficial in an exhibit I was planning. I was not examining the lot extensive, as the price quoted was within my budget. I was drawn to one stamp, and I couldn't believe my eyes - it looked like a double impression. Since I had never seen one before I couldn't wait to take my purchase somewhere and examine my find in a better light.

Even without the aid of the magnifying glass, I could plainly see the double impression around the Queen's necklace. Then, with the glass I saw more - the word "Postage" was highly distorted and other parts were now visibly blurred. I now wondered if it could be listed in Scott's Catalog, or had I discovered it! I was certainly not displeased when it was cataloged as Tasmania 29c and had found a home in my exhibit. This was the beginning of my collecting errors of a different kind!

Some reasons why flaws, varieties, errors occur.

The compositor may have had a mix-up in letters in his type box. He could have dropped a letter or space bar. Perhaps, even getting a stop out of alignment which could cause the spacing to be different.

In the case where the compositor has been given an urgent order, and stamping has been done by hand, many variations may occur.

A faulty transfer, where the design is transferred to the stone (plate) from which the lithographed stamps are printed, may result in creases and other variations. Even a small bit of foreign matter could lodge on some stamps, before falling off or being worn away.

Two of the hardest flaws to detect are the re-entries and retouches. A crude remodeling by the engraver to touch up a worn-out or damaged plate where an error has been found could produce imperfect results.

Re-entry usually show light marks where a small part of the design being repeated becomes cloudy when a second application of the transfer roller upon the printing plate comes in contact. It must be identical with the original entry, otherwise signs of both entries will appear on the printed stamps.

Stamps have been enlarged to aid in finding errors, flaws and defects

Tasmania

Double Impression

S.G. # 29a
MI. #9t

Once the final designs had been viewed for the newly formed Commonwealth of Australia, the Postmaster General noticed Tasmania had been omitted and instructed the stamp printer to add the outline. Somehow a defect appeared on a few of the newly issued stamps in 1913. It is called "The Extra Tasmania" flaw.

Flaw seen on left stamp. Correct on other stamp.

George V
"Spur" shown is a defect in the "1" of "1 1/2" right side.

SC = *Scott's Catalog*
SG = *Stanley Gibbons*
MI = *Minkus*

"Kangaroo With Broken Leg" flaw has been listed in catalogs for many years. It seems as if part of the leg is missing, rather than broken, or are we seeing a broken leg with a large bandage? This flaw appeared first in 1915 on the six penny ultramarine and then again on the six pence chestnut stamp in 1923. The error was finally corrected in 1924.

SC # 48b
SG # 38ca, 73a
MI # 75t, 76t

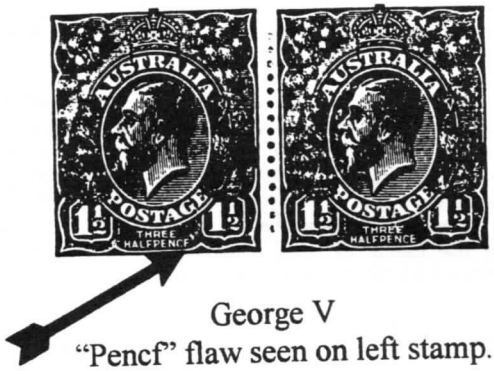

Due to the cancel blocking out the error on my stamp, a fine magnifying glass is needed. I therefore submit a copy of the error as shown in *Stanley Gibbons* catalog.

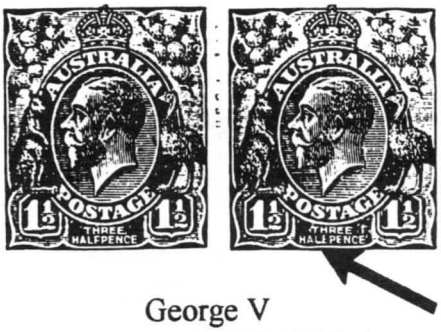

George V
Plate flaw on "4" lower right.

George V
"Saddle" on emu flaw. So called for the white mark that touches the back of the emu. Flaw shown on stamp at right. Correct on left.

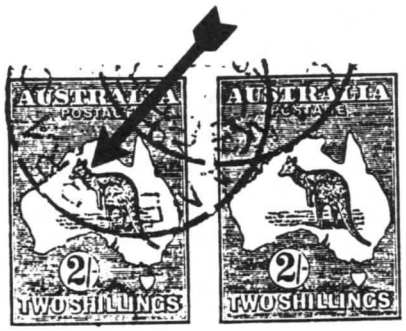

George V
"Pencf" flaw seen on left stamp. Correct on right. Due to worn type.

George V
The error, "HALEPENCE" shown on stamp right with correct on left stamp.

SG #77b
MI # 103t

For more information suggested reading
Billig's Philatelic Handbook, vol. 42

Kangaroo "Chopped Neck " flaw

Shown on this 1935 issue. Seen on the left stamp but not on the right. Other "Chopped Neck" varieties found on nine pence violet of 1913 and five shilling of 1929.

George V

Error shows thin 1 of 1/2 (right side) of left stamp, correct stamp attached.
This was caused by the engraving of a new fraction in a defective electro.

SC # 19a, 60a
SG # 29c, 51a
MI # 96

George V
"Top of crown missing"
In time the top of the crown quickly wore away. The problem was solved by the use of substituted clichés. Minkus mentions the error for the one penny scarlet but not the 1 1/2 pence.

EDITOR's COMMENTS

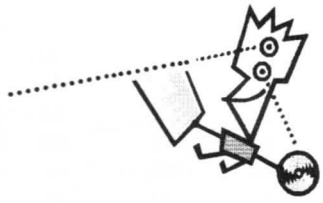

Peter Rikard has made up for lost time as evidenced by this issue's auction of some 640 lots with a reserve value of $12,800 and an estimated value of $25,000 plus.

Sincerest appreciation to Betsy and Chuck Berry, Michael Mules, Joe Battaglia, Charles Miller, Scott Owen, and of course, anonymous for this auction's lots which include an interesting used piece and a color missing mint stamp.

Keep An Eye Out For - - -

20 cent Pheasant Coil: the self-adhesive coil, of 100 stamps, has been discovered with the die-cut separations to be completely missing. Also, this found coil has a red paper splice near the left edge. This coil contains four stamps displaying plate number 1111. This discovery was from northern Illinois and EFOCC member Jacques Schiff, Jr. will auction some of these items , please note Jacques' advertisement in this issue.

29 cent Cranes stamp issue: A pane has been discovered with intaglio red and intaglio black printing doubled on 10 of the pane's 20 stamps.

"H" Rate Coil Make-up Issue: EFOCC member Steve Crippe of Mill Creek Stamps, reports discovery of a single coil row of 100 stamps with the red colour entirely missing and the blue and gray colors shifted down and to the right. The coil has an all "2's" plate number.

20 cent embossed Purple Heart stamped envelope: Two errors have been reported – (1) an albino envelope with all colors absent and (2) an envelope with black ink completely missing and a slight shift to the right of the purple color.

EFOCC Auction Rules For Consignors

Preparing Lots:

Please use a blank form from, such as contained in a recent copy of *The EFO Collector*. Photocopies are fine. Please use a separate form for each lot.

Secure each lot to the front of the form; attach large lots to the reverse side. Protect all items with mounts, glassine, etc., and stiffeners if necessary, but **be sure** item/items can be easily removed by auction director for examination and/or photographing. Do not use staples. Attach each item so that description can be easily read. A simple and easy way to mount lots is to do so on dealer sales cards, or in glassines mounted face down for easy removal.

Include a reserve (minimum bid) or write "none". Lots may be revised to accurately describe items; or returned if necessary. Your name and EFOCC number must be on the consignment form but to preserve anonymity, these are removed from the consignment sheet before sending item to successful bidders.

Send consignments to Peter L. Rikard, POB 25623, Richmond, VA 23260. Use **insured** or **registered** U. S. Mail.

Consignor Fees:

Consignor commission is 10% of the hammer price, with a minimum bid of 50 cents per lot.

Unsold lots incur a 50 cent fee per lot, and the consignor pays return postage and insurance.

Expenses and printing constraints make it impractical to picture every lot, especially those which are large in size. EFOCC will exercise discretion in picturing lots.

Consignor Special Instructions:

To save postage and labor, EFOCC can automatically resubmit unsold lots at lower minimums in a future auction, **if you instruct EFOCC clearly what to do.**

If you send duplicate or very similar lots, it is consignor's responsibility to state clearly if you would like to these to be placed in different sales. Generally, EFOCC places all items received in the same sale to minimize paperwork.

Consignment/Payment Timing:

EFOCC receives consignments continually and prepare them for subsequent sales, roughly on a first in first out basis. However, large lots may be spread over several auctions.

After the close of each sale, unsold lots are offered to bidders on a first come-first served basis for $1 over the reserve with no buyer's commission or postage. This increases total sales, makes more bidders happy, and sells more lots for consignors, all for very little additional effort.

EFOCC needs approximately one month after auction's closing date to determine successful bidders, prepare and mail invoices, mail lots, receive payment from winners, list after sale lots and accept their offers, etc., etc. Thus consignors can expect reimbursement four to six weeks after an auction closes.

EFOCC Rules Auction #91 Bidders

How to Bid:

Please bid on a consignment form from a recent *EFO Collector.* A photocopy is fine.

Include your EFOCC membership number. For new bidders and non-EFOCC members, please include your APS membership number. Sign your bid sheet to acknowledge acceptance of the EFOCC auction rules; unsigned forms can not be accepted.

Submit bids to Peter L. . Rikard, POB 25623, Richmond, VA 23260. Email <rikard@erols.com>

Bidding Precautions:

Minimum bids are not estimates, but are true reserves established by the consignors. Bids below the listed reserve will not be accepted.

Bidders are responsible for inaccurate bids. Bids do not have to be typed, but, please, be sure numbers and amounts are clearly legible. Confirm phone and Email bids with a written bid sheet.

Auction Bid Increments:

Please use the following increments when bidding and/or assigning reserves to consignments. Lots are sold to the highest bidder at one advance over the second highest bid.

Bid Level ~~~~~~~~~~~~~~~~~~~~~~~~	Increment
$1 to $9.99	$ .50
$10 to $49	$ 1.00
$50 to $99	$ 2.50
$100 to $499	$ 5.00
$500 and up	$ 10.00

EFOCC reduces out-of-increment bids to the next lower increment. For example, a bid of $39.50 will be taken as $39.00.

Special Bidding Instructions:

As the EFOCC is a small auction, special instructions can not be easily accommodated. EFOCC can not accept "BUY" bids nor "INCREASE BY...%". **Please, make your final, best, and highest bid and you will get the lot at the lowest price available.**

Bidders Payments:

A 10% buyer's premium is added to the hammer price of each lot. Buyers pay postage, plus insurance on lots valued at over $10.00.

Payment is due upon receipt of invoice. If you will be out of town for a while just after an auction closes, or are moving to your summer home about that time, please let EFOCC know at the time you place your bids.

Returning Lots:

Within five (5) days of receipt of awarded lots, you may return any lot which is not described correctly provided such lot is still in its original condition. If an expertising certificate is a condition of bidding, please inform EFOCC of this before auction closes.

One Final Request:

Please bid generously on **donation** lots whose monies go entirely to the benefit of the EFOCC.

Remember.....

Auction # 91 Closes:

Auction Directors Notes

An apology

There has been a long void between the last auction and this one. I apologize for the extraordinary time that this process has taken. Due to personal issues, I was forced to set aside everything for almost 8 months. I attempted to continue some things during May and June of last year, but did not complete many things, including EFOCC auction management. I kept believing that things would be better the next month, for far too many months. Things are finally better.

The auction in this issue has been in the works for a number of months, but it has been finished in the last few weeks. I believe that the auction process will now go back to it's regular schedule.

91st Auction

This is our first auction for the year 2000. I won't get into the debate whether this is the first auction of a new millennium , but it is a whizbang. There are 642 lots in almost every category, a lot of fine and interesting material. I will be promoting it in the stamp press (paper and internet) and would hope to get a really good response and some new members.

Note Changes

The plan was to illustrate as many lots as possible and in the past I attempted to illustrate all lots. I am changing that plan in this auction. I have not illustrated some lots; they are marked with the letters "NI" after the minimum bid in the auction listing. Some of these are very large and complete in the lot description, but many are booklet panes with plate numbers. The plate number lots are described with the plate number and the percentage of the plate number showing. This information is generally supplied by the owner. Odd miscuts and misperfed booklet panes are illustrated. In correspondence with both the suppliers and buyers of plate numbered booklet panes, the chief concern raised was not an illustration, but the correct identification of the plate number.

In addition, most of the complete sheets of stamps and large partial sheets are illustrated only partially. I have attempted to show the EFO of the material without reducing the illustration too much or using a whole page to do it.

If you have concerns about the appearance of the auction, please write to me. If you don't tell me what you want or what you think I could do better, I can't fix it.
